

## Warranty Statement

This warranty statement is for those products supplied to and sold from all territories internationally. This statement provides details of warranty provided by Ocean LED Marine Ltd. Customers who have purchased through an authorised dealer may benefit from a warranty provided by their dealer and should seek their advice.

OceanLED stands by its products. In general terms, the company gives a full 2 year's manufacturer's warranty on all its products from date of sale from OceanLED.

Warranty replacements shall be covered for a period of 2 years from the date of the original product sale from OceanLED. Please note that in the case of a product sold more than 24 months ago and less than 30 months ago, proof of purchase by the customer within the last 24 months must be provided.

To claim, please contact an authorised OceanLED dealer, complete appropriate troubleshooting and collate the following information:

- Customer name
- Current location of the vessel or products
- Description of the failure in detail along with photographic evidence
- Details of any tests that have already been conducted
- Serial numbers and/or any proof of purchase from OceanLED and onward sales

Troubleshooting guidelines can be found within the relevant product manuals, which are available on the OceanLED website: [www.oceanled.com](http://www.oceanled.com). Claims may be rejected if the troubleshooting guidelines are not completed, information provided is not complete, the warranty period initiated at original sale from OceanLED has passed, or no defect is found with the product. The detailed terms and conditions of this warranty are set out below.

Please note that all metal parts corrode in salt water. The primary factors affecting corrosion are not directly related to our products and accordingly OceanLED cannot be held responsible for corrosion-related defects. This includes where water has been allowed to enter the cable as a result of immersion in water during the installation or improper sealing of connections. Please note that corrosion will be particularly aggressive if installation and/or bonding have not been undertaken properly or if stray currents are active in the vicinity of a boat. In neither case will a warranty claim be accepted.

Colour variation occurs during LED manufacture and is inherent to the manufacturing process for all LED types. Whilst OceanLED makes every effort to match the colour of our lights, there may be a noticeable difference between batches of LED lights. OceanLED does not warrant colour variation on lights.

OceanLED reserves the right to change the design of our products, range of products offered and components used for manufacture without any prior written or verbal communication.

OceanLED is not liable for the organisation of or costs such as but not limited to haul out of vessels, scaffolding and lifting equipment. OceanLED does not cover the cost of labour associated with warranty claims.

Valid warranty claims with appropriate provision of failure data may be processed through the dealer which handled the original purchase or the closest dealer to the boat geographically at the time of failure. In either case, a serial number and a description of the failure mechanism will be required alongside a warranty claim form with the appropriate supplementary information listed above. In order to qualify for a replacement product free of charge the faulty product must be returned to OceanLED within 30 days for testing and verification. If the product has failed and the failure is deemed to be due to manufacturing fault as opposed to installation or maintenance error, you will be entitled to a free of charge replacement product on a like for like or equivalent basis. If an urgent replacement is required direct from OceanLED, you will initially be invoiced for the replacement, to be refunded if the claim is valid. You may be able to obtain a replacement free of charge through your original dealer. If the warranty claim is found to be void for any reason or the faulty product is not returned within 30 days, you will be required to pay for their replacement product(s) if you have not already. Where failed products are not returned within 30 days and a replacement part has not already been provided, claims will be closed and replacement parts will no longer be offered.

Product installed by OEM will be warranted when shipped as part of a new boat package.

## 6: MAKING A CLAIM

6.1 Irrespective of how the products were fitted or by whom when you discover that there may be a problem with the products you must notify either a dealer or OceanLED within 14 days.

6.1.1 When you discover a problem please note that the faulty products must not be used. This will minimise any further damage. The product must be disconnected to prevent accidental use by removing the power feed from the driver box and covering the end of the power lead with a waterproof solution to prevent water entering the cable connectors.

6.1.2 If a claim is accepted, the part will be replaced on a “like for like” basis. No refunds will be given.

6.1.3 If you are dissatisfied with any part of the process of claiming please let us know.

6.2 Products supplied and fitted by a dealer:

6.2.1 If products were installed by an authorised dealer we ask that you contact the dealer and ask that they check the installation and establish the cause of the problem. If you are not local to the installer, please visit our website ([www.OceanLED.com](http://www.OceanLED.com)) to find the authorised dealer closest to you. Installation issues or electrical aspects external to the lighting system are often the root cause of issues, and these can often be resolved without the requirement to remove the products and return them.

6.2.2 You should locate your purchase invoice for the products when you believe there is a problem and contact the dealer you purchased the products and / or who fitted them.

6.2.3 Your dealer will contact us and together we will investigate the issue.

6.2.4 If the problem is found not to be due to the manufacture of the product, the warranty claim will be invalid.

6.3 Products supplied by a dealer but fitted by the Buyer:

6.3.1 If you installed the products yourself, before making contact we ask that you seek troubleshooting advice from your dealer and record the information required on the warranty claim form. Please also refer to our website [www.oceanled.com](http://www.oceanled.com), where you will find OceanLED product installation manuals that contain valuable troubleshooting advice.

6.3.2 If after following the troubleshoot guide, you still believe that the problem still exists with our product you will need to contact the dealer that you purchased the product(s) from. If you are unable to do this, you may contact any dealer / distributor in your local area (a list can be obtained either from our website ([www.OceanLED.com](http://www.OceanLED.com)) or by contacting our Head Office.

6.3.3 You will be required to provide the information recorded on the warranty claim information sheet and have the copy of your purchase invoice for the products.

- Customer name
- Current location of the vessel or products
- Description of the failure in detail along with photographic evidence
- Details of any tests that have already been conducted

The dealer will complete the appropriate warranty claim form that will be returned along with the product.
