EXPLORE E3 XCHANGEABLE FLUSH MOUNT

Technologically advanced & super efficient, Explore is the ultimate choice of underwater light series.

FEATURES

Fixture Lumens

Top Beam

Rectangular

COLOUR PART#

Ultra White E3009W

Midnight Blue E3009B

Dual White/Blue E3009BW

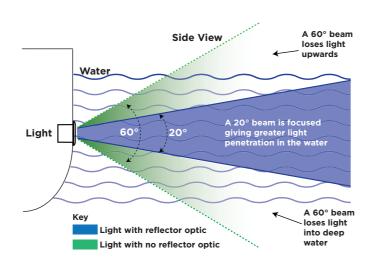

Colour Scroll E3009CS

The Explore E3 has the most advanced optics available on the market. These optics are designed exclusively by OceanLED and offer a truly striking 90° surface beam angle with a focused 20° side beam producing a blade of light under the water that penetrates further, illuminating a larger area with minimal loss.

The ultra low profile outer face of the housing is designed for vessels wanting to go fast and have no impact on speed or flow of water over the hull, perfect for the sides or running surfaces.

- Superior light distribution due to advanced, new generation optics.
- · Available in single, dual or full RGBW colour scroll models.
- In built driver for easy installation.

* Ultra White measurement

5,000 FIXTURE LUMENS

Best-in-class performance from this ultrabright light makes it the obvious choice for those who want to stand out from the crowd.

90°/20° BEAM ANGLE

A true wide-angled, focused beam lights up a large area of water, flooding it with light.

COMPACT DESIGN & BUILT IN DRIVER

The compact size and built in driver mean less space is required inside the vessel, allowing installation in tight areas.

REDUCED INSTALLATION TIME

All aspects of this design make installation quicker and simpler.

SIMPLE TOGGLE CONTROL

Changing to Fish-Strobe or selecting a colour on the RGBW model is a simple toggle of the power switch.

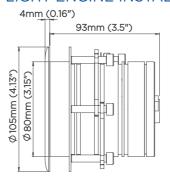

FISH-STROBE MODE

Exceptionally bright, randomised strobing of the light is proven to attract more bait and catch more fish.

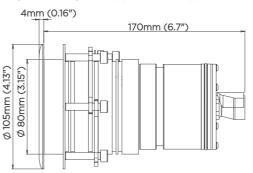

SAME LIGHT OUTPUT AS SPORT SERIES

E3 can be mixed with Sport series lights. Sport can be used on transom and E3 along the sides where flush mount is preferred.
