Compatible with OceanLED Explore E6 Dual Blue/White models.

The DMX WiFi Touch Panel Controller lets you control the colour of your Explore E6 Dual Colour underwater lights at the touch of a button. The user can turn their E6 underwater lights into an integrated part of your boating experience.

This touch sensitive intelligent control keypad has 10 pre programmed lighting effects to choose.

Advanced users can re programme the controller to create individual colour scenes.

The controller can be connected to a local WiFi network via an external router, allowing control via mobile devices such as an iPhone, iPad, or Android.

Not for use with Explore Colours DMX, Pro or X Series lights. Please see our full range of OceanDMX kit options.
